

Drive disks BLACK SHARK

Drive disks / drive plates adhesive bound with black harpoon drive faces for driving pads.

GUTMANN QUALITY for a longer service life, best performance and high economic efficiency.

Highlights

- Robust and chemical resistant bonding of harpoon drive face and carrier
- Innovative geometries (dual row flukes) and special plastic formulation
- Intelligent technology for a firm hold of pads
- Optional shock absorption to reduce vibrations

Areas of application

- Floor and surface cleaning machines with high drive force and correspondingly high demands on the mechanical strength of the hooks
- For driving all common pads

Technical data

Overall dimension

Length/Width/Height	≤ 1000 mm / ≤ 500 mm / –
Diameter	≤ 600 mm

Körper

Length/Width/Height	–
Diameter	–
Material	–
Colours	Standard colour black; special colours on request
Shower feed	With/without

Face

Materials	Black adhesive bound drive face with dual row
-----------	---

Connection

Connection	Individual connection to the machine with coupling, adapter or modular system technology, with and without centre lock
